PROCEDURES FOR INVOLVING EMPLOYEES IN THE DEVELOPMENT AND IMPLEMENTATION OF THE WVPP

Involving employees in the development and implementation of our WVPP is a critical component to the program's overall effectiveness. We welcome and encourage employees to participate in both the initial development and implementation as well as the ongoing/annual refresher of this plan. We will utilize the following procedures to involve employees in the development and implementation of this plan:

- WVPP Administrators will share the plan with certificated and classified staff for employees to provide feedback and suggestions to address the safety needs of the district.
- District representatives will complete annual site safety inspections to assess the vulnerability of workplace violence at our sites and discuss preventive controls that are already in place and ones to be considered.
- The plan will be reviewed on an annual basis as part of the safety plan review, when debriefing specific situations, and during the onboarding of new employees.
- Employees may submit ideas and/or suggestions directly to the people responsible for the WVPP as identified above, via email or telephone.
- Site/Department administrators/supervisors may solicit feedback during site/department meetings.
- All employees will have the opportunity to provide feedback and suggestions to address the safety needs of the district via the LCAP survey.

WVPP IMPLEMENTATION & COORDINATION

In an effort to ensure that all employees understand their respective roles in this plan, that they understand all aspects of this plan, and they understand how to report incidents of workplace violence, we will provide employee training and communicate updates to all employees during the development and implementation of this plan, including timelines and next steps.

All employees are responsible and will be held accountable for using safe work practices, for following all directives, policies and procedures, and for assisting in maintaining a safe and secure work environment.

All administrators, supervisors, and employees will comply with work practices that are designed to make the workplace more secure, and will not engage in threats or physical actions that create a security hazard for others in the workplace.

Administrators and supervisors will:

- Inform employees, supervisors, and managers about our plan.
- Evaluate the performance of all employees in complying with our workplace security measures.
- Recognize employees who perform work practices which promote security in the workplace.
- Provide training and/or counseling to employees who need to improve work practices designed to ensure workplace security.
- Discipline employees for failure to comply with workplace security practices.
- Follow established workplace security directives, policies and procedures.

Administrators and supervisors will maintain an open, two-way communications system on all workplace safety, health and security issues. Communication is designed to encourage a continuous flow of safety, health and security information between administrators, supervisors, and our employees without fear of reprisal and in a form that is readily understandable.

PROCEDURES TO ACCEPT & RESPOND TO REPORTS OF WORKPLACE VIOLENCE

Employees should report workplace violence to their site principal and/or call 9-1-1 if the threat/act of violence is imminent and serious. All employees are encouraged to report any concerns or incidents related to workplace violence, and that they can do so without fear of reprisal.

PROCEDURES TO ENSURE EMPLOYEES COMPLY WITH THE WVPP

While the superintendent and site principals are responsible for overseeing the development, implementation, and maintenance of the WVPP, all employees are responsible for adhering to their roles, responsibilities and training provided under this plan. Supervisors and managers will use the following procedures to ensure employees comply with the WVPP:

- Ensuring employees completed/attend the training(s) and refresher training(s) assigned them.
- Monitor employee adherence to topics and concepts covered in the training they received.
- Follow our established disciplinary action process if an employee or supervisor does not follow elements of this plan.

We will actively enforce all aspects of the WVPP. An employee that fails to adhere to the procedures and practices of this plan shall be disciplined through the following progressive discipline system:

1. Conference Summary with Required Retraining
2. Written Warning
3. Written Reprimand (placed in Personnel File)
4. Notice of Unprofessional Conduct
5. Suspension
6. Move for Demotion or Dismissal

While adhering to a Progressive Discipline process is a “best practice” management reserves the right to proceed directly to any progressive disciplinary step without having completed prior steps when the employee conduct threatens the safety of others or is deemed to have reached a level of egregiousness that warrants skipping to a greater level of discipline. Whenever an employee is disciplined, the employee’s supervisor shall document the action taken and report such action to the superintendent.
